ABOUT SPACE TRAVEL SUMMIT

A new era in space travel has begun. The powerful partnership between government and the private sector is unlocking boundless opportunities for humanity to explore space.

Join us at the Space Travel Summit, **08 - 09 December 2025** - a world class event connecting space ecosystem and shaping the future of the space economy. Get ready to meet, engage, network with top industry players, and discover the latest advancements from the global space exploration pioneers. Take a part of two days of high-impact conference featuring by global industry experts.

STS brings together the biggest names of the space industry, governments, regulators, investors, international space agencies, academics to share knowledge, understanding, collaborate and close the deals.

Come and feel the state of industry!

WHY EXHIBIT / SPONSOR?

Visibility and Networking

Participating in Space Travel Summit provides companies with a unique platform to enhance their visibility within the space industry.

Showcasing Innovations

Showcase your cutting-edge innovations to investors, buyers, and industry leaders driving the future of space travel.

Industry Insights and Knowledge Exchange

The summit serves as a hub for industry insights, where companies / individuals can gain valuable knowledge about the latest trends, advancements, and regulatory changes in space travel.

Brand Authority and Credibility

Participating in the Space Travel Summit positions your company as a thought leader, reinforcing its credibility and influence in the evolving space exploration industry.

EVENT OVERVIEW

Exhibition & Sponsorship

Maximize visibility at the debut of our summit's exhibition. Become a sponsor to establish your brand as a front runner in the space travel industry. Forge invaluable connections and be a foundational partner in shaping the future of space exploration.

Conference

Join our premier closed-door conference for strategic insights into space travel industry trends, investments, and commercial opportunities. Network with CEOs, policymakers, and industry leaders, and explore technological breakthroughs and the evolving business landscape.

Join us in launching this vision and setting the trajectory for years to come.

AGENDA TRACKS

Space Travel in National Space Programs

1

Vision to Strategies

Space programs start with a nation's dream to grow, explore, and expand to the horizon of knowledge, curiosity, and making on earth and beyond.

2

Infrastructure & Operations

A strategy in place is limited by infrastructure readiness for implementation and capabilities to sustain successful operations. This track aims at bringing your assets to life.

3

Public-Private Partnership

With emerging opportunities, collaboration between private sector innovation and public sector implementation capabilities is key to sustainable growth.

Contributing Community

- Space Agencies
- Regulators / Consultants
- Industry Experts
- Investors & VCS

Industry Growth & Ecosystem Expansion

1

Commercial Space Travel / Tourism

Less expensive and more accessible space transport is leading to a growth in profitability behind space travel. Thus, the STS community is the opening gate of limitless potential.

2

Key Trending Technologies

Bringing space suborbital flights, make in space, experience design, innovation in infrastructure and more insights on the key technologies driving the future of the space economy.

3

Startup Ecosystem

Space industry is a complex ecosystem. STS aims to sustain private sector share of the market growth by empowering innovative space startups with unique value proposition.

Contributing Community

- Space Startups
- R&D Providers
- Industry Experts
- Investors & VCS

Commercial Space Activities: Challenges & Opportunities

1

Space Accessibility & Inclusivity

Can we all become part of our own universal dream? Let's discuss the factors affecting access to space and how to build an inclusive space economy.

2

Space Resources Utilization

Strategic planning aims at optimizing the use of resources in a sustainable manner that can drive efficient operations. This track shall explore the various utilization techniques.

3

Innovation in Space Travel

What's the next big thing? The answers are unlimited to technologies, resources and strategies. Let's uncover the standards and expectations!

Contributing Community

- Space Initiatives / Organization
- Hospitality Providers
- Industry Experts
- Regulators / Consultant
